1880--1881.

As another New Year has dawned upon us, a thoughtful mind can hardly avoid such reflections as the following: How have we passed the twelve months that have gone to make up the last year? How many of the bright hopes which were formed at the commencement of 1880 have been consummated? How many of our numbers have been taken away by death? And on the contrary, how many generous enterprises have been blessed with great success? How much of national progress and the wholesome result of good laws realized? It is well for us to recall these matters, that we may be able by the experience of the past to improve in the future—that looking on the year just closed we may be able to better live I knew the funeral ceremonies would during the one just commenced. If all | go on without me, so I concluded I would adopt this determination and would bring the body. Mr. Editor: - We would offer a protest to those who continually seek to refer to Andover Street by the undignified term of

It is a well known fact that two clergylately gave out notice of an entertainment to take place in the Chapel on Andover

Then fearing that their eongregations might not know where Andover Street was they added as an after thought "more familiarly and generally known as 'the Coast'" or words to that effect. Now it seems to us it is a lamentable fact, if the people of Peabody in general have no clear idea where that locality called Ando-

ver Street by that hopeful few is located.

It may appear to a few that this article is needless and uncalled for. But after the "Kingdom" has changed its designation to Lowell Street, and "Garp Lane" has become Central St, and "The Rocks" is now only known by the name of South Peabody, why in the name of goodness, patience and long-suffering, must "The Coast," a term which has the least significance of all the old names referred to, not only this, but while the other names are fast being forgotten this appellation on the contrary is gathering new strength and vigor, what reason we ask is there for keeping up this one of the last surviv-

ing relics of barbarism? We hope the time may not be far away, when ministers and deacons, newspaper | daylight between him and his Democraters, will know where Andover Street is off although he had his feet in the stirlocated and "The Coast" shall have passed rups. This year we got a splendid send away and been forgotten.

WALCOTT'S SILO.-Mr. J. G. Walcott desires us to make a correction in the article in our last issue entitled "Farmers in Council," viz.: There were "over 200 tons, and over one-half of this grew on two and one-half acres" (not ten as reported). He says he remembers saying nothing about old Jersey cows giving good quantities of milk by eating this fodder, as he owns none. He did say, cost of cutting and putting feed into the silo, depends on the distance the corn is raised from the building. Ours cost about one dollar per ton-not including the planting."

The efforts of Mr. Atkinson and Miss Ellard were particularly well received, their "Poetical Wooing" affording much amusement .- Boston Post.

Fun at a Funeral.

Apropos of the banquet at the Aborn house, in which both Republicans and Democrats took active part and gave vent to the feeling inspired by the result of the late election, we copy from the Nonpareil a speech made by Mr. L. Blake, a young Democrat of Page county, at a Republican jollification meeting held in Clarinda. The good humor, genial wit and happy manner of the speaker warrants its production even at this late date. After a number of Republicans had spoken, Mr. Blake being observed in the audience, was called upon, dragged out and compelled to the following deliverance, which we commend alike for its fun and philosophy

to the doleful democracy of Des Moines: Fellow Citizens:-A man usually attends his own funeral, but it is not expected that he should talk a great deal. Nobody but a Democrat could do it. It is certain that no one save a Democrat has had a chance to try it for the last twenty years. Disappointment is the modern Democrat's birthright, and mourning his normal condition; they took out a patent on disaster twenty years ago, and it has never been infringed on. The patent run out in 1876 and they have just had it renewed. [Loud Applause.] Looking over the landscape for the last twenty years I behold acres and acres of busted hopes, cords and cords of disgruntled ambitions, barrels and barrels of unavailing tears, oceans and oceans strewn with the wreck of phantom ships once burdened with Democratic delusions. Disappointment is an anchor to the democratic soul both sure and steadfast. [Continued Applause.

Christmas.

Christmas is becoming every year more generally observed on this side of the big pond," not only as the great era of ed to over \$700. Christianity, but as a season of social enjoyment, gifts of friendship, and a general good time all round. Coming on Saturday, our clergymen generally made it their theme on Sunday.

At the South Church there was a Christmas Tree Festival in the vestry on Friday evening, and some three hundred presents given to the children; a valuable line engraving was also given to the pastor's wife, Mrs. Sperry. On the Sunday following Rev. Mr. Sperry delivered a very interesting Christmas sermon, taking his text from the 1st Epistle of John iii., 8: "For this purpose the Son of God was manifested." The coming of Christ, he said, was to offset the work of the Devil, who is the author of sin .-Christ's task was to banish delusion and uproot sin. There were no Christian homes then; no brotherhood of men or elevation of women. Infanticide was upheld by law, and educated heathendom presented a scene of brutality. The work of Christ was defined to be the inculcation of truth by love, and love, when contending against sin does not lose itself in hatred. Christmas, concluded the speaker, should be observed and its lessons dwelt upon in Christian homes as an instrument of enforcing and upholding divine truths.

The choir rendered the following selec-

Christmas was duly observed by the Unitarian Society. On Christmas eve there was a tree in the ladies' parlor loaded with gifts for young and old. Shadow pantomimes were displayed and a merry time enjoyed. The church was finely decorated with evergreen and handsome mottoes. Over the organ, in rear of pulpit, on earth, good will to men." Sunday evening a fine Christmas concert was given by the Sabbath School.

At the Universalist Church, Christmas eve, the members of the Sunday School, with parents and friends, gathered in the vestry, which was prettily and tastefully decorated wita wreaths and evergreen. > At the Methodist Church two huge Christmas trees laden with substantial gifts, greeted the goodly number who visited the vestry last Friday evening. The vestry was very neatly decorated with evergreen. The early part of the evening was spent in listening to appropriate remarks by the pastor, Rev. Dr. Steele, upon Christmas, and how it was celebrabrated in former years, after which the presents were given out, occupying the remainder of the evening. The New York Herald, we are told, uses over a thousand miles of white paper, five feet and three inches wide, per week. A country publisher in Indiana, having seen this statement, sat down to figure out how long it would take him to use up that much paper, with his regular circulation. On ascertaining that he couldn't do it in less than 369 years and seven months, he advertised his office for sale. He said there was no use in trying to compete with those New York dailies.

Of all myriad moods of mind That through the soul come thronging, Which one was e'er so dear, so kind, So beautiful as longing? The thing we long for, that we are For one transcendent moment Before the present poor and bare

Can make its sneering comment. Still, through our paltry stir and strife, Glows down our wished ideal, And longing moulds in clay what life Carves in the marble real. To let the new life in, we know Desire must ope the portal; Perhaps the longing to be so Helps make the soul immortal.

Longing is God's fresh heavenward will, With our poor earthward striving, We quench it that we may be still, Content with merely living. But would we learn that heart's full scope Which we are hourly wronging, Our lives must climb from hope to hope And realize our longing.

Ah! let us hope that to our praise Good God not only reckons The moments when we tread his ways, But when the spirit beckons. That some slight good is also wrought Beyond self satisfaction, When we are simply good in thought. How e'er we fail in action.

Our Christmas Tree.

The following lines were composed for the "Christmas Tree" at the South Church too late for presentation.

Come, take dear Christmas by the hand And merry let us be; Come all, a merry, merry band Around "Our Christmas Tree."

"Our Christmas Tree" is "Evergreen," With gifts its boughs are hung: Of various kinds, as will be seen When opened by the young.

What is "Christmas," do you say? And Echo answers, "What?" It was on this blessed day, Salvation's precious gift was brought.

Jesus, our Saviour, in manger born, (There was no room within the "Inn." E'er may his love our souls adorn, He came to save us from our sin.

Our hearts are fill'd with joy and cheer, To view"Our beauteous Christmas Tree. We'll hie away-our friends appear, To give to you and me.

Books abound all over the room; hidden away here under tables, there standing erect on book shelves; but the most distinctive feature is an escritoire covered with papers, books stands a large round table, covered with a tapestry cloth. It is here the meals are served when Monsieur and Madame receive company, otherwise they use the kitchen to dine in every day. As they employ a regular servant, Madame finds this much more convenient in every retheir wants alone. The rest of the ites.

But to return to the salon and its ochis head is supported, with its weight four o'clock in the afternoon; a Septem-Monsieur, there leaning his head on his hand, is meditating on it silently,

live happily with, we should say; so cold and taciturn, always buried in thought more or less; and Madame, sitcomplaint. She is accustomed to the silence, and cares not to speak, except of his pain found constant outlet in that to ask him indifferently, as he takes his one cry of "Grand Dieu! Insupporta. by the consciousness that demons are hat and some books, before going out, 'When will you return?"

"At the usual hour," is his laconic reply; and he leaves the room.

Her face wears no aspect of regret after he has gone; she does not seem to mind his coldness, but continues her senior and might pass for his mother. Although in her youth she was not illlooking by any means, she has now but few remains of beauty left. She is stout and elderly, and wears the matterto our minds, never seems to have asked a question of any power of nature as to why it is, where it is. It is a stone, and there it lies, without even desiring to be kicked on a little farther. So it seems with Madame. She is there; a part of had been young, but that was so long ago. She has forgotten all about it, and there are no children about her to renew the recollection. She had brought Monsieur a very fair dot. He was only a poor student when she married him. Their parents had arranged the marriage, and they had acquiesced. Monsieur is now a professor, and a great student, living wholly in his books; Madame, in her home and her economies, like the good wife that she is. They visit, and are visited in return. They have walked together, eaten together, dwelt together for years in an indissoluble companionship, and yet—as we have before remarked—heaven and earth are not far-

ther apart. "Grand Dieu! Insupportable!" now exclaims one of them.

It is Monsieur, who on his way down stairs allows this groan to escape him.

But, ungrateful man that he is, what possible fault can he have to find with Madame, his good wife? Does she not per; "why should it be so when a little sew for him, cook for him, economize for him? His home is well cared for, his substance is not wasted. Is she not virtue and respectability itself?"

Yes, she is all this, he must own. And yet, mon Dieu! how insupportable is life with her!

Fifteen years had he borne it; silently, uncomplainingly, a dead life of unsympathetic routine with a woman against whom no one could justly bring a single charge of neglected duty. When he was sick, did she not nurse him night and day? Did she not give her money to aid in his support? Did she not, when he was only a poor student marry him? And what return had he made for all this? Acceptance and bourg. It is fatiguing to mount so resignation hitherto. But now there many stone stairs; but we reach our was an upheaval of feeling at work within him that pretended a volcanic crisis. HOW LOST, HOW RESTORED!

HOW LOST, HOW RESTORED!

Just published, a new edition of Dr. Culverwell's Celebrated Essay on the radical cure of Spermatorrhea or seminal Weakness, Involuntary Seminal Losses, Impotency, Mental and Physical Incapacity, Impediments to Marriage, etc.; also, Consumption, Epilepsy and Fits, induced by self-indulgence or sexual extravagance, &c.

The celebrated author, in this admirable Essay, clearly demonstrates, from a thirty years' successful practice, that the alarming consequences of self-abuse may be radically cured; pointing out a mode of cure at once simple, certain and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.

This Lecture should be in the hands of every youth and every man in the land.

THE SUN FOR 1881.

Everybody reads The Sun. In the editions of this newspaper throughout the year to come everybody will find:

I. Ail the world's news, so presented that the feader will get the greatest amount of information with the least unprofitable expenditure of rime and eyesight. The Sun long ago discovered the golden mean between redundant fulness and unsatisfactory brevity.

II. Much of that sort of news which depends less upon its recognized importance than upon its interest to mankind. From morning to morning The Sun prints a continued story of the lives of real men and women, and of their deeds, plans, loves, hates and troubles. This story is more varied and more interesting than any romance that was ever devised.

III. Good writing in every column, and freshness, originality, accuracy, and decorum in the treatment of every subject.

IV. Honest comment. The Sun's habit is to speak out fearlessly about men and things.

V. Equal candor in dealing with each political party, and equal readiness to commend what is praiseworthy or to rebuke what is blamable in Democrat or Republican.

VI. Absolute independence of party organizations, but unwavering loyalty to true Democratic principles. The Sun's believes that the Government which the Constitution gives us is a is a good one to keep. Its notion of duty is to resist to its utmost power the efforts of men in the Republican party to set up another form of government in place of that which exists. The year 1881, and the years immediately tollowing, will probably decide this supremely important contest. The Sun believes that the victory will be with the people as against the Rings for monopoly, the Rings for plunder, and the Rings for monopoly, the Rings for plunder, and the Rings for imperial power.

A VALUABLE OFFICER. - Under this head the Boston Journal pays the following well-deserved compliment:-Wm. M. Hill of Salem, one of the most valuable officers of the district police force, on Monday tendered his resignation to the governor. Mr. Hill was a member of the old state detective force and was one of the first appointed on the organization of the district police. His record was most creditable, both as a man and as an officer. His work, especially upon many important cases in Essex county, has always been marked by cool and careful judgment, a keen and comprehensive insight into men and motives, and a faithful and skillful persistency that has crowned his efforts with success when nearly all others would have failed. Our extensive preparations for the Spring Season embrace so much that is new and choice, and include so many NOTICEABLE BARGAINS, that we have decided to set them forth in order in the "press." It may be said, we have done this a 1000 times before. So we have, and a 1000 times the public has generously supported our efforts to sustain in Salem a great business enterprise. We have found a judicious and liberal use of printer's it k a good investment. We intend to keep our business before the people, and as in the present instance, we hope always to have present instance, we hope always to have SOMETHING NEW and interesting to say.

of America, says that while a passenger from New York on board a ship going around Cape Horn, in the early days of emigration to Calthe vessel had cared himself, during the voyage, of an obstinate disease by the use of

Ayer's Sarsaparilla.

Since then Mr. Leland has recommended Ayer's Sarsaparilla in many similar cases, and he has never yet heard of its fail-

ure to effect a radical cure.

Some years ago one of Mr. LELAND's farm laborers bruised his leg. Owing to the bad state of his blood, an ugly scrofulous swelling or lump appeared on the injured limb. Horrible itching of the skin, with burning and darting pains through the lump, made life almost intolerable. The leg became enor-mously enlarged, and running ulcers formed, discharging great quantities of extremely offensive matter. No treatment was of any avail until the man, by Mr. LELAND's direction, was supplied with AYER'S SARSAPA-RILLA, which allayed the pain and irritation, healed the sores, removed the swelling, and completely restored the limb to use. Mr. LELAND has personally used

Ayer's Sarsaparilla

for Rheumatism, with entire success; and, after careful observation, declares that, in his belief, there is no medicine in the world equal to it for the cure of Liver Disorders, Gout, the effects of high living, Salt Rheum, Sores, Eruptions, and all the various forms of blood diseases.

We have Mr. LELAND's permission to invite all who may desire further evidence in regard to the extraordinary curative powers of AVER'S SARSAPARILLA to see him personally either at his mammoth Ocean Hotel. Long Branch, or at the popular Leland Hotel, Broadway, 27th and 28th Streets, New York. Mr. LELAND'S extensive knowledge of the good done by this unequalled eradicator of

blood poisons enables him to give inquirers much valuable information. PREPARED BY Dr. J.C. Ayer & Co., Lowell, Mass.

The railway time tables are in perfection in the rural districts. Not long ago a night train with a party of New Yorkers on board was bumping along comfortably at a ten-miles-an-hour gait through a remote part of Virginia, when all at once, with a tremendous jerk, it came to a s.andstill. The natives in the sleep ng-car did not think it worth while to ask the reason of the sudden stoppage; the aliens did, though, and when the conductor strolled through the car a roar of indignant inquiry went up. The day conductor soothingly explained that they always stopped at a switch for fear it might not be set. "But, good gracious," exclaimed an irate New Yorker, "where is the switch-

"Git up, Jim; the train's here, and a passel of them durned folks from up North is raisin' a breeze 'cause the switch ain't set.

Jim called back, "I'm a comin'," and evidently turned over and went to sleep again. The Virginians on the train began to chuckle. Their sympathy was entirely with Jim and the conductor. The latter continued to urge Jim, who was always "comin"," but didn't come. The conductor, at first apologetic, being goaded by the New Yorkers, now became pressing. "Do, Jim," he anxiously said, "git
